Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Claim 1 and 41 (similar claim language/same invention)- discussion was in reference to the limitation of the obtuse angle and the ear canal entirely supporting the earpiece. Applicant agreed with suggested claim language for claims 1 and 41 to overcome the Hosaka reference and also agreed to submit a figure to comply with the ear canal entirely supporting the earpiece; claim 22-the discussion was based on the aspects of the flexible channel; claim 35-the discussion was based on the TDH-39 frequency response standard. The suggested changes and arguments provided are anticipated in the Response to current Non-final Office Action.
